What is Frequensea Events?

UNDER THE
PINK MOON
AN IMMERSIVE MANIFESTATION
EXPERIENCE

Frequensea Events was created from lived experience with manifestation. Each event begins as a vision and is brought to life through intention, alignment, and action — creating spaces where people can experience what's possible when energy is focused and purpose is clear.

VISION

To create a world where intentional gathering becomes a catalyst for transformation — where people come together in alignment, presence, and purpose to consciously shape their lives and the energy they bring into the world. Frequensea Events envisions experiences that remind people of their power to manifest, connect, and expand through shared energy, creativity, and conscious community.

MISSION

Frequensea Events exists to design immersive, intentional experiences rooted in manifestation, alignment, and inspired action. Through music, movement, nature, and community, we create spaces where vision becomes tangible — environments that invite presence, elevate frequency, and allow people to experience what's possible when intention is honored and energy is directed with purpose.
